5:00	Class 3	

We are very pleased to have you over for the

Fundamental Hari Program 2017-18 in Boston. Along with instruction in the fundamental essence of Hari,

Sensei Kuwahara will divulge new facets of this ever-evolving life medicine.

HARI works within the heart of Japanese Ancient (Kototama) Acu-Medicine.

Its theoretical foundation is based in the Five phase/dimensional model derived from the Japanese classics *Kojiki and Nihon-Shoki* and grounds itself clinically with Ki (E-Ki) evaluation Pulse dx. methods. The Hari system has a flexible approach to local treatment which draws from the strengths of various Japanese classical acupuncture practices and the Chinese classics *Su Wen, Ling Shu, and Nang Jing*.

Life-style Hari study develops the practitioner’s awareness in the Kū 空---Mu 無 and high dimensional quality of Ki.

OFFICE AND REGISTRATION

Deadline: Application submission and payment for the entire program is due

October 1st, 2017.

Deposit: \$200.00 (NO REFUND) will reserve your seat. Class size will be limited (**only eight**)

*** **NO REFUNDS ON CANCELLATIONS MADE AFTER DEADLINE DAY NOTICE.**

Those enrolled in the full program are responsible for the entire tuition regardless of attendance or completion.

GOAL AND TOPICS OF FUNDAMENTAL HARI PROGRAM

Essence of Hari Practice:

Know oneself for (Dispersion / *Misogi*) and the beginning of the universe (Tonification / *Kuni Umi*)

Diagnostic process and Treatment in updated Hari focuses on:

Three dimensional steps to assess the SHO (Pattern of Imbalance and Treatment Strategy).

1. Intuitive (Kototama=Shin and SHO) Seventh-Dimension.
2. TJM (E-ki flow-change in the meridians) Sixth-D.
3. TCM (Ki in the physical body) Fifth-D.

Emphasizing pulse and superficial skin palpation dx. as well as clairvoyance through your hands and in your meditative state of mind. With Teishin (UTT) method, we refine our palpation and Ki diagnosis skills, *learn and practice* live point location, Hara Ki dx, and finding “Volcano points.”

Hari Treatment with Futomani-Shinpo

Simplified Teishin (UUT) NON-insertion methods: Ho, Ho-chu-no-sha, Waho. O-Kyu (moxa).

We will refine our Feeling of the obtaining, coming, and going of Ki, while focusing on “Ki arrival” (*Kuni-Umi*), the liberation of Ja-Ki (*Misogi*), and Long Distance tx. method (*Shinkiko*).

Ki feedback methods: Evaluation of the tx

The evaluation system centers on the E-Ki changes in Aha-mation (telepathic intuition) or feedback from changes in the patient’s and/or practitioner’s pulse to monitor before, during, and after the treatment.

Advanced Techniques

- A) Abdominal Ki dx with new relation points on the Hara w/Fukuju-shin
- B) SHO determination for Root with SHIGO, Extra Vessel system
- C) Easy and quick Hara dx, the re-discovery of the HT SHO, and usage of the HT channel for SP SHO

And, needless to say...

We brush up on our original Japanese meridian therapy work

- ✧ Determining the Primary and Secondary SHO (Pattern of Unbalance and Treatment Strategy)
- ✧ Point selection, based on Nanjing Ch. 68, 69, 75
- ✧ Pulse quality dx. in Six Positions
- ✧ Oshide/Sashide, Body and Spiritual posture

QUALITY AND POWER UP OF the HARI

Ki & Breathing Exercises in Kototama Meditation

We practice Hari in meditative stage with Kototama words to heighten the quality of our Ki, and power up through breathing exercises.

CLASS SIZE

A large portion of the program is dedicated to hands on training and telepathic intuition feedback. This is the key to really learning Hari and producing results in our lives. Class size will be limited (only eight students) to ensure proper supervision. Therefore, early registration with full payment is advised, submitted to the president of the Boston Hari Society.

HARI CLINIC

Hari Program students will have the option to observe Mr. K's treatments at CULIA CLINIC on Saturday mornings as an additional free educational experience. The last Saturday afternoon of the Hari Program will be "Student Hari Clinic." You will be the chief Hari therapist in the room with Mr. K's support.

WHO YOU WILL STUDY WITH

Takayuki Koei Kuwahara, L.Ac.

Mr. Kuwahara has been practicing Acupuncture for forty years in Boston MA and Japan, employing both classical Japanese Acupuncture and Japanese Medical Ki Gong to support patients. After graduating from Tokyo Therapeutic Institute in 1979, he went on to complete an intensive live-in five-year apprenticeship with Fukushima Kodo, renowned practitioner and developer of the Toyo Hari system of acupuncture. Having taught for the Toyo Hari Association for 15 years, Mr. Kuwahara now teaches his unique (Hari) style of acupuncture that draws from the various systems practiced by his teachers: Sensei Masamichi Shimada (Kototama), Tetsuo Shiomi, Masakazu Ikeda, Denmei Shudo (Meridian therapy), Kunsei Kudo (Bloodletting), Masanori Tanioka (Pediatrics), and Masato Nakagawa (Shinkiko/ Ki-Gong). Since visiting NESAs as a guest instructor in 1991, he has taught several JAS courses as well as continuing education programs in many parts of the world. He is the editor of Traditional Japanese Acupuncture –Fundamentals of Meridian Therapy, a comprehensive JMT textbook, and of numerous acupuncture articles. He has practiced Aikido and Iaido for 45 years and lives in Watertown, MA, where he maintains a private practice.
