

EV+Shigo Tx. and Hari style of Meridian Therapy

Traditional Japanese Acupuncture Institute

Instructor: Takayuki Koei Kuwahara, LAc. President of the Hari Society www.culia.net.
Organizer, Instructor: Mark Petruzzi MS, LAc, LMT Director of the (TJAI)
631-559-2220 TJAinstitute@gmail.com

The use of the Extraordinary Vessels and Shigo in Meridian Therapy, Kishin style of EV was developed by Genan Kuzuno sensei and will be the focus of this weekend.

The instructor will also take a more detailed look at the primary and secondary Sho/patterns of Meridian Therapy delving into HT, PC patterns or KD excess. The course will work to transform the practitioner's sensitivities, increase awareness, and provide additional tools to help bring balance back to the system.

Friday + Saturday: EV and Shigo, Integration to Root Treatment:

We will study Kuzuno Sensei's intricate and intelligent system that utilizes the systems of Kishin style of EV and Shigo (Midday/Midnight) as tools for diagnosis and point selection in both Root and Branch (local) treatments on Friday and Saturday. These methods work for both immediate symptomatic relief as well as weaving brilliantly into the support of the root treatment.

This is a unique opportunity to study and explore the use of

1. Expanded pattern and points of EV tx. and use of magnets as diagnostic tool.
2. Ki-Shin style abdominal/Hara dx.
3. Gold-needle method for both excess type of and deficient type of pain w/Shigo

Saturday + Sunday:

Hari style (Pulse-biofeedback +Touch-needling) of Meridian Therapy and, Local tx.

On this day, we will introduce super easy Hari style with Primary and Secondary Sho and Nenshin(1)(2) needle techniques that will help develop the sensitivities needed to practice most effectively.

We will study the Sanshin techniques and Du channel tx. to bring balance back to the system.

1. Hari style of needling Nenshin(1) w/Intuition-feedback
2. Sanshin therapy and + Du/GV channel tx. with Nenshin(2) /tornado
3. Integration w/EV, Shigo
